- Created and productized multiple service offerings.
- Integrated 4 international teams: US, Armenia, India, and UK/Ireland.
- Led and secured multiple Partner Specialization renewals.
- Engaged in project cycles end-to-end with clients and adjacent teams.
- Closed multiple project deals.
- Developed sales enablement and marketing collateral for service offerings.
- Hired, trained, coached reports in various career stages.
- Maintained excellence in department's project delivery.

2018–2021

Senior Cloud Infrastructure Engineer

INFRASTRUCTURE MODERNIZATION AT SADA · Remote 📍

- Consulted and assisted clients in migrations between AWS, GCP, Kubernetes, EKS, GKS, Cloud SQL, hosted databases, and other systems.
- Configured and managed CI/CD services and pipelines.
- Managed infrastructure with Terraform, Ansible, Chef, and Puppet.
- Embedded with clients to containerize and migrate applications.
- Worked according to clients' timelines, downtime and technical constraints.
- Automated internal tasks with Zapier, Bash, GoLang tools.
- Mentored peers, worked through pair programming sessions.

2017–2018

Senior Site Reliability Engineer

GRINDR, LLC · Los Angeles, CA 📍

- Managed AWS infrastructure with Terraform.
- Structured and built custom RPM and DEB packages.
- Transitioned infrastructure from legacy Ubuntu to CentOS.
- Configured CI/CD using Jenkins pipelines.
- Automated tasks with Ansible.
- Worked with other teams to operationalize development efforts.
- Participated in and submitted bugfixes to relevant OSS projects.

2016–2017

Platform Engineer

NORDSTROMRACK.COM · Los Angeles, CA 📍

- Maintained AWS and GCP infrastructure with Terraform.
- Implemented CI/CD for AWS AMI builds using Jenkins Pipelines and Packer.
- Architected and deployed a containerized Nginx routing tool.
- Managed infrastructure deployment with Puppet, Chef, and Foreman.
- Migrated vital infrastructure configuration from Puppet to Chef.
- Presented and participated in the weekly CISSP exam study group.
